EDUCATION

Royal Institute of Technology   **Stockholm**
Engineer, Media Technology   *Sept 2014 - June 2019*

Royal Institute of Technology   **Stockholm**
MSc, Interactive Media Technology   *Sept 2017 - June 2019*

Royal Institute of Technology   **Stockholm**
Bachelor, Media Technology   *Sept 2014 - June 2017*

EXPERIENCE

Byggmax   **Stockholm**
Backend Developer   *Sept 2020 -*

o As a backend developer at Byggmax I work within the .NET framework. The most important task is to maintain and develop our API micro services that our website depends on. I also work with integrating the backend with Byggmax's ERP systems. We are a team of 3 backend developers, that together with our frontend developers run a website that sustains e-commerce for 1 billion kr annually.

Byggmax   **Stockholm**
Operational Purchaser   *May 2020 - Aug 2020*

o Summer job at the head office of Byggmax. As an operational purchaser, my main focus was to make sure all Byggmax stores in Scandinavia had enough supply to satisfy customers during the high season of summer.

Valtech   **Stockholm**
Software Developer   *Feb 2020 - April 2020*

o ArmyOfDoers - A web application that allows customers to free up time by uploading tasks that can be completed by assistants working for AoD. A MVP of the application was built from scratch with the MERN-stack.

The Mobile Life   **Stockholm**
Master Thesis   *Jan 2019 – June 2019*

o A master thesis in collaboration with The Mobile Life within the main subjects of augmented reality and information visualization. I wrote an Android application in Java that can visualize data and events from a live hockey game in AR.

Securitas   **Stockholm**
Guard   *June 2016 - Aug 2018*

o Summer job as a guard for Securitas.
